Active DOD/DOE Secret Clearance

PROFILE

Manager, Senior developer, Architect, Business/Data Analyst that is ready to design, create, and implement an ETL Data movement application for a large Data warehouse, Data Mart, and Systems migration / upgrades. I have strong experience using a variety of databases and ETL Tools along with over 20 plus years of experience in the Information Technology Industry. Also, as important, I have excellent communication skills to identify and implement customers' needs and work as a liaison between IT and business personnel. I have strong leadership skills and always strive to do whatever it may take to get the job done correctly and on time.

Skills Summary

- ◆ 20 plus years of Informatica development and design of ETL methodology for supporting data transformations and processing, in a corporate-wide-ETL Solution using Informatica Power Center and Power Mart.
 - ◆ ODI developing source and target from Hyperion Planning and Data Relationship Management
 - ◆ Implemented Data Cleansing using Informatica Transformations, Stored Procedures/Triggers.
 - ◆ 12 years as ETL Team lead / Architect
 - ◆ 20 plus years of overall Information technology experience developing software involving full life cycle development and maintenance in various business applications.
 - ◆ 20 plus years of Oracle experience.
 - ◆ 20 plus years of Data Warehousing experience.
 - ◆ Experience in Oracle development and extraction of databases and file sources and populating Data Marts.
 - ◆ OHADI HDWF
 - ◆ Experience in MDM standards and Trust Matrix
 - ◆ Experience in Design and applications Development using Oracle tools.
 - ◆ Experience and working knowledge of UNIX, working with AIX for 3 years, HP-UX and Solaris.
 - ◆ 2 years as project manager.
 - ◆ Possess excellent communication skills, interpersonal skills and leadership qualities.
 - ◆ Agile Methodology and Waterfall Methodology
-

Specific Technical Skills

Specialization: Informatica, Oracle, PL/SQL, SQL, Database design
ETL: Informatica 4.5 – 10.2, BDM Developer, IDQ, Server Manager, Session Manager, Designer, Workflow Manager, Workflow Monitor, Meta data Reporter, Power Connect (Striva), CDC, ODI 11
Tools: Erwin, SQL*Loader, Toad, SQL Developer, Queryman 6.0, Teradata SQL Assistant
Software: PC Master, CLP (Lawpack), Remedy, Tidal
Databases: Oracle, Teradata, SQL-Server, Ms Access, DB2, PeopleSoft, SAP, Facets, Hyperion, DRM, Azure

Professional Project Experience

InSight Global

INSIGHTGLOBAL

Apr/2019 - Current

Senior Database ETL Engineer

- ETL Developer for T-Mobile
- Designing, developing ETL code using Teradata, Azure, Hadoop, Informatica, Oracle.

Nov/2018 – Apr/2019

PLS Logistics

Senior Database Engineer

- Lead ETL developer and architect
- Using many different tools and databases to keep tracking of shipping / billing information.
- Data Analyst on current data.

Apex / CACI

Feb/2016 – Oct/2018

Remote work for DOD Health Agency

- Lead / ETL developer / architect
- Using Informatica 10.2 BDM Developer to load large data files and tables to Hadoop and Teradata
- Data Analyst on current data.

Qlarion

Oct/2014 – Nov/2015

Pittsburgh, PA (Pordash Computing, consultant)

- Contracted to Bechtel / Bettis Atomic Power Laboratory
- ETL Architect, design ETL mappings
- ETL ODI development with Hyperion, Planning, DRM & DW
- Validating data in Hyperion Planning from ODI loads.
- Creating DRM export to tables and flat files
- Had daily scrum sessions

UPMC

Data Warehouse Manager

Apr/2013 – Sept/2014

Pittsburgh, PA

- Manager of ETL development team for a five year \$100+ million dollar project.
- Manage team that is responsible for loading all data into Oracle data warehouse using Informatica
- Manage schedule for team
- Assist in design of data warehouse loads as ETL architect
- Assist in design of ETL error / audit process
- Perform pre-development reviews, code reviews, and Unit test reviews
- Manage 10 fulltime employees and 25 consultants
- Assist in setting up MDM standards and Trust Matrix
- Informatica Admin, setting up security, users, folders and best practices.
- Used Agile methodology and had daily scrum meetings
- Used IDQ to validate and research data

UPMC

Pittsburgh, PA (Pordash Computing, consultant)

- System / data analysis, reviewed source data and created mapping specs for the ETL development
- ETL Architecture analysis documenting processes and load orders, error handling
- ETL development using Informatica 9.5 from multiple source systems in Oracle, SQL-Server, flat files to Oracle tables
- Creating test plans for ETL code
- Informatica Admin, setting up security, users, folders and best practices.
- Used Agile methodology and had daily scrum meetings
- Used IDQ to validate and research data

Pordash Computing Inc.

(Pordash Computing, consultant)

- ETL Architecture analysis
- ETL Design, development, testing and documentation
Active Secret Clearance
- System / data analysis
- Used Agile methodology and had daily scrum meetings

Companies contracted with:

- Navy Cyber Defense Operations Command (NCDOC)
- HealthNow & BCBS
- PNC Bank
- Lockheed Martin
- Royal Caribbean Cruise Line
- RJ Reynolds
